

CLINICAL CODING SUPPORT

THE SERVICE

Providing support to General Practice in managing rising demand by accurately coding clinical correspondence, while ensuring full compliance with all Quality and Outcomes Framework (QoF) requirements through effective use of DOCMAN and EMIS systems.

WHAT WE OFFER

- Bespoke service inline with practice protocol.
- Proficient Clinical Coders.
- Providing resilience in supporting General Practice needs.
- Working to C.A.R.A.T principles (Complete, Accurate, Relevant, Accessible, Timely).
- Regular audits of filed clinical letters to ensure quality assurance.
